

PRAYING FOR THE BRAIN

Jeffery & Katy Barsch
Saturday, October 13, 2012
9:00 a.m.-4:00 p.m.
@ The Vineyard
928 17th St.
Bakersfield, Ca 93301
\$20.00 per person

In this seminar, we will explore exercises and demonstrations that can improve concentration, reading and brain function. The latest research about A.D.D. and Learning Disabilities will be explored from a Christian perspective. Jesus is teaching us how to pray for the brain and these prayers will be taught to conference participants.

Jeff & Katy Barsch are directors of the SOZO Center in Ventura, California, as well as Regional Directors of Southern California for Bethel, SOZO. Prior to starting the Ventura Healing Rooms in 2002, Jeffery served on staff at a local church for five years in Christian counseling and church prayer ministries.

Jeffery taught in colleges & universities for 30 years about the brain and has a doctorate specializing in educational psychology and special education from the University of Southern California.

Katy worked for fifteen years as an elementary school teacher with special interest in teaching children to read. Katy has a bachelor's degree from CSU Northridge.

Their passion for working in healing ministry began when Jeffery was completely healed of a serious illness in April of 2000. Their hearts for inner healing began years ago as they allowed the love of Jesus to permeate and restore them to greater freedom in Christ.

Jeffrey & Katy have raised five wonderful sons and are blessed with five delightful granddaughters. They live in Pine Mountain Club and minister in Ventura, Ca., enjoying the beauty of the mountains as well as the beach.

One of the more exciting things they have been doing with Sozo tools is applying the techniques with students who have learning disabilities or poor academic performance. Jeffrey has been using the Sozo techniques with at risk students at one of the local high schools with startling results. Students have become more comfortable in the classroom and their grades have improved dramatically. Katy loves teaching and mentoring people in Sozo. They are both passionate about "Praying for The Brain" because everyday they see people set free from the lies of the enemy.
